London Quotations Came Lower, but Several Shares Rallied at Times-Local Markets Very Quiet.

At New York yesterday money on call was easy at 11/02 per cent : last loan, 2 per cent.; closed, 11/202 per cent.

Prime mercantile paper, 3\\@4\\\2 per cent. Sterling exchange was weak, with actual business in bankers' bills at \$4.86% @4.87 for demand and at \$4.83%@4.84 for sixty days; posted rates, \$4.841/4@4.85 and \$4.88@4.881/2 commercial bills, \$4.821/2.

Bar silver, 651/4c; silver certificates, 651/4@ 5%c; Mexican dollars, 50%c. At London bar silver closed at 29%d per ounce. Total sales were 102,537 shares, including the following: American Sugar, 14,100; Bur-

lington, 27,300; Louisville & Nashville, 3,500; Reading, 10,600; Rock Island, 3,600; St. Paul, 12,200; Wheeling & Lake Erie, 7,300.

The stock market ruled about as dull yesterday as previous to the holidays, and, although there were no influences that have not recently been operative, the tone was heavy the greater part of the day. The professionals displayed the only interest that was discernible in the speculation, and the main argument against prices was the unsatisfactory character of the traffic returns, chiefly for the third week in November. In the final hour the market was enlivened by a moderate burst of activity on a covering movement and prices rallied in many instances. London quotations came lower, but the arbitrage operations | gal; in half bris, 3c per gal extra. were not noteworthy owing to a disposition to await the outcome of the London fortnightly settlement, which began to-day. The Burlington November statement was heralded by a drive at the stock, which depresesd the price 21/4 per cent. The weakness in Burnington exerted unfavorable sympathetic effect on the other railway snares, and this group overshadowed the industrials in point of activity with the single exception of Sugar, which was secsingle exception of Sugar, which was second in that respect. The chief extreme declines, aside from Burlington, were in Rock Island, 1½ and Delaware & Hudson, 1¼ per cent. Consciidated Gas, exceptionally, rell 4¼ per cent. to 136¼, rallied to 139 and closed at 138. Wheeling & Lake Erie was depressed fractionally on reports of an unsatisfactory condition of the bituminous for condition, 40-inch, 6½c; Carlisle, 40-inch, 7½c; Dwight's Star, 7½c; Pepperell R, 5½c; Pepperell R, 5½c; Pepperell R, 5½c; Androscoggin, 3-4, 15c; A coal trade. The failure of long stock to come out induced a rally in the late dealings under the leadership of Reading, which advanced about a point from the early low figures, on the reported improving condition of the anthracite coal trade, due to the more seasonable weather, and

the announcement of the payment of January interest on the general fours. The weakness in Consolidated and other gas stocks was set down to the old influences of expected hostile legislation. The mar-ket closed firm at fractional net losses gen-Railway bonds were dull and practically

featureless, aside from a degree of firm-ness in Reading fours. The sales were Government bonds were in fair demand and ruled higher on purchases of \$75,000. State issues were quiet. In Virginia centuries an advance was noted to 62% on

PRICES FIRMER

FINANCIAL EMBARRASSMENTS OFF-SET THE FAVORABLE NEWS.

Chicago Market Closed at a Small Advance, the Strength Not Extending to Other Grain.

CHICAGO, Dec. 28.-The unsettled local financial condition offset to a large extent the favorable effect of the extremely light world's shipments of wheat to-day. That market closed steady at a 14c advance, Fluctuations at no time were sharp, the range of prices being but %c. Other markets were dull and steady, corn closing a shade easier, oats 1/3c lower and provisions

about 21/2c higher. Wheat opened very firm because of the small shipments of the week from the exporting countries of the world. The closing of another rather important Chicago bank, and the other statistical news concerning wheat, which was of the most bullish kind, prevented a much greater degree of strength than was exhibited in the corner of Market and Pennsylvania streets, Incourse of the day. Reports received before the opening, indicating that the total world's shipments for the week would be less than 4,500,000 bushels, caused May wheat, which closed Thursday at 81%c, to open at from 82%c to 82%c, with the bulk of the first transactions at 821/4c. There were a few sales in the next few minutes at 82% 68216c, and those were at the highest price of the forenoon. Trade was extremely light up to 12 o'clock, and during that time the general tendency in prices was slightly downward. The trading price sagged quite slowly, but inside of the first forty minutes it had got as low as 81%c. The official report of the world's shipments made the total only 3,374,000 bushels, of which amount 2,112,000 bushels was contributed by this country. The visible supply statement was another surprise, as owing to the small exports from the sea-... 1,112.50 board last week an increase was expected. There was a decrease of 720,000 bushels, against an increase of 560 900 bushels at the corresponding time of the year before. These two items had a good effect, and after the decline to 81% c mentioned, a rally to 83%c took place. The amount on ocean passage is 1,840,000 bushels smaller than a week ago. The price during the last hour had many fluctuations between \$1%c and 8214c, but was inclined to resist any reduction below 82c, and that was the closing price. Rumors of further bank troubles were denied, and New York reported a con-tinued foreign demand. These were the prevailing features at the close.

Corn ruled quiet, steady and nearly featureless, keeping within a narrow range, and very close to the finishing figures of Thursday. It did not derive much benefit from the firmness in wheat, as large receipts were reported to-day and liberal estimates for to-morrow were made. May opened a shade lower, at 25%c. fluctuated between 254@25%c and 251/2c, closing heavy at the opening figure. Oats were slow of sale and easy, with prices 1/3c lower at the close. At the start the feeling was steady, in sympathy with the firmness in wheat. An increase of 1,042,000 bushels in the visible supply caused a disposition to sell, and brought about the weaker tone. May opened unchanged, at 20c. sold at 20kc, dropped back to 1934@ 1978c and closed at 1978c.

Trading in provisions was almost entirely confined to changing January contracts into May. Prices fluctuated very slightly, and for the most part in favor of the long side, helped partly by wheat, and partly by a firm hog market. At the close May pork was a shade higher, at \$7.90; May lard 21/20 higher, at \$4@4.021/2; May ribs 21/2c higher, Estimated receipts for Tuesday-Wheat,

30 cars; corn, 355 cars; oats, 375 cars. Hogs, 27,000 head. Leading futures ranged as follows: Open- High- Low- Clos

THE year is drawing to a close, which is a reminder that all unsettled business should be attended to. A man owes it to his family as a paramount duty that in case of death his plans and wishes shall be known. Every man and woman owning property, and intending to dispose of it, should make a will. Even if satisfied with the division made by law, it is always well to have some one in whom you have confidence to make that division. THE UNION TRUST COMPANY will act as Executor, Administrator, Guardian and Trustee. It cannot die like an individual. will always be responsible financially, and will work for moderate compensation. Consultations as to making wills are invited and they will be safely kept for nothing.
